

What is optical cable relocation

Overview

Fibre optic cable relocation involves moving existing fibre optic installations to a new location. This process demands careful planning to maintain service continuity and optimal performance. Depending on your needs, would an ethernet cable not cover it?

to move a master socket if you have ADSL or FTTC is £130, to move an ONT if you have FTTP is around £98, it's the fee Openreach charge all providers for relocating. Today we're asking the question, ' What do I do if. I'm joined to discuss this important topic by two Brodies partners, Lucie Barnes and Manus Quigg, welcome to you both. These cable bridge the gap between an ISP's backbone infrastructure and end-user premises, enabling high-speed internet, voice, and data service in residential. Relocating my Virgin Media fibre cable. The existing cable in running across the front of my house but I want it moving up the house and through the loft, how do I book this?

VM will be reluctant to run through the loft unless there is a full stairs access and a boarded floor.
