What specifications is the JXF distribution box

Overview

The boxes are made of cold-rolled steel or stainless steel, have an IP55 rating, and come in various standard sizes from 200x200x150mm to 1800x1000x300mm. JXF Series Power Distribution Box product is box assembled with various control functions by customer-selected components, and there are many box sizes and specifications and the size of the box can be customized according to the size of the installation elements. It is used in the AC 50Hz power. This document provides specifications for JXF series metal sheet distribution boxes manufactured by Zhejiang Farady Electric Co. They. The JXF distribution box is suitable for 50Hz, 500V and below three-phase three-wire, three-phase four-wire, and three-phase five-wire systems with load currents not exceeding 250A. It provides control, leakage protection, and motor overload, short-circuit, phase-loss protection, as well as various. ype, a “R” is added after the Specification. For single row 20, and circuit 24, fter confirming the wires meet the requirements. A paid repair will be provided if the warranty period expires.
